Columbus, Ohio Named Top 7 Finalist for Intelligent Community Award

Intelligent Community Forum Names Columbus to Top Honors Again

SAN ANTONIO, TX--(Feb 20, 2014) - For the second year in a row, Columbus, Ohio has been named to the 2014 Top 7 Intelligent Communities' list, and Capaciti Networks, a division of Competitive Companies, Inc. (OTCBB: CCOP) (OTCQB: CCOP) is again instrumental in the city's Intelligent Community efforts.

"Our stimulation of the market by offering competitive wireless offerings for businesses and commercial Wi-Fi, is one of the concepts of Intelligent Communities," said Angus Davis, Chief Strategy Officer for Capaciti Networks. "Our use of a high-capacity network is the perfect conduit to allow cities to do more with their connectivity such as opening up new capabilities to application developers who have previously been hampered by constrained throughput."

"We're honored to again be named as an Intelligent Community Finalist for 2014," said Gary Cavin, Director of Technology for the City of Columbus. "Capaciti has played an instrumental part by helping to elevate the city through piloting its state-of-the-art wireless network and forward-thinking dedication to bringing exciting technology concepts to the market that exceed typical broadband networks."

Another CCI company, Wytec International, engineers the wireless networks and provides the cutting-edge equipment that powers the network.

Capaciti has recorded download speeds on the Wytec-built network of 202.79 Mbps to a laptop, 125.80 Mbps to a stationary smart phone and 93.54 Mbps to a smart phone in a vehicle moving approximately 15 Mph. Capaciti is also the home of "Bid for Better Broadband," which allows business owners to name their own price and pick their own plan for broadband through the website at www.capacitinetworks.com.

About Competitive Companies, Inc.

Competitive Companies, Inc., founded in 1998, is a Nevada-based corporation with offices in San Antonio, Texas and Eau Claire, Wisconsin. The Company focuses on acquiring and providing next generation wireless broadband technologies and mobile data applications through its subsidiaries Wytec International, Inc. and Capaciti Networks Inc. Capaciti Networks was founded in 2013 and has completed several next-generation Wi-Fi pilot projects for in the city of Columbus to support "Intelligent Community" development and ubiquitous broadband coverage throughout the United States. Upon completion, this Intelligent Community Network will deliver cost-effective and high-speed internet access to business, enterprise and municipal customers.

Wytec International, Inc. holds five key patents related to high-capacity mobile broadband services and is currently developing derivative technology suited for small cell deployment catered to carrier offload services.
