SAN ANTONIO, TX, Jun 30, 2015 (Marketwired via COMTEX) -- Wytec International, a subsidiary of Competitive Companies Inc. (CCI) (otc pink:CCOP), announced today that Wytec's Chief Strategy Officer, Angus Davis, will be speaking at the 2015 International Telecommunication Union (ITU) Asia-Pacific Regional Development Forum, held in Bangkok, Thailand. "We are overwhelmed with honor and excitement that Mr. Davis was selected to speak at this prominent event," remarks William Gray, CEO of Wytec. The ITU Forum, hosted by the Kingdom of Thailand on August 21-22, 2015, is a specialized agency within the United Nations and is in collaboration with the Ministry of Information and Communication Technology for Thailand. This year's theme is "Smartly Digital Asia-Pacific." Conference agenda can be further viewed at <http://www.ITU-2015Conference>.

The Forum, designed to provide private-public investment opportunities between decision makers of ITU Member States and Sector Members throughout the Asia Pacific, will address regional initiatives focused on international telecommunications cooperation, promoting digital inclusion, and addressing environmental protection and disaster-recovery management.

Mr. Davis will speak on the Development of Broadband Access related to "intelligent city" initiatives, SME business models, innovative uses of affordable broadband, and addressing next generation technology to meet the growing demand for high speed broadband access. Mr. Davis will be joined by former Minister of Communications of Finland, Mrs. Suvi Linden. Mrs. Linden, a regular speaker at this Forum, earned her acclaim by establishing broadband as a civil right in Finland. When asked to speak again at the 2015 Forum, Mrs. Linden suggested to the executive panel that they consider including Mr. Davis as a new panel presenter. She has been following the progress of Wytec for more than a year and most recently accepted a position on Wytec's Advisory Board. Together, Mrs. Linden and Mr. Davis will be spearheading Wytec's international presence with government leaders on Wytec's patent-pending LPN-16 and its impact on key regional ITU telecommunication initiatives. Wytec utilizes its patent pending technology to develop next generation networks capable of supporting 5G network standards. For more information about Wytec, go to www.wytec.biz.

THE INFORMATION IN THIS RELEASE IS NOT AN OFFER TO SELL NOR A SOLICITATION TO BUY ANY SECURITY OF THE COMPANY. ANY OFFER TO SELL OR SOLICITATION TO PURCHASE A SECURITY MAY ONLY BE MADE BY THE COMPLETE CONFIDENTIAL PRIVATE PLACEMENT MEMORANDUM FOR THE COMPANY, WHICH INCLUDES A DESCRIPTION OF RISK IMPORTANT RISK FACTORS.

About Wytec International, Inc. Wytec, a subsidiary of Competitive Companies, Inc., was founded in 2011 as a Nevada-based corporation with corporate offices in San Antonio, Texas. The Company's primary business focus is developing next generation fixed and mobile wireless broadband technologies in support of the upcoming 5th Generation (5G) Networks designed to supplement the current 4G LTE Networks. 5G Networks are aimed to support a minimum of one (1) gigabit of data transfer to fixed and mobile wireless end users utilizing a variety of hand-held smart devices such as smartphones, laptops and tablets. It is also designed to support Machine to Machine (M2M) applications and high speed services included in the upcoming "Internet of Things" mobile data marketplace.

Forward-Looking Statements This press release contains statements that are "forward-looking" and are made pursuant to the Safe Harbor provisions of the Private Securities Litigation Reform Act of 1995 and federal securities laws. Generally, the words "expect," "intend," "estimate," "will" and similar expressions identify forward-looking statements. Since forward-looking statements address future conditions, they involve inherent risks and uncertainties. Actual results in each case could differ materially from those currently anticipated in such statements. Investors are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date they are made.
